### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gerald Halt on April 5, 2004.

2. The application has been amended as follows:

In claim 1, on lines 8-9, ", for sliding over said impressionable medium in order to smooth out said impressionable medium" has been deleted.

In claim 1, on line 13, "to" has been changed to -- said --.

In claim 1, on line 17, "moved is means" has been changed to -- means is moved --.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or render obvious a personal identification and tracking system as claimed, particularly including an activation means comprising a flat base, a lever, rotatably coupled to the impression means and pivotally coupled to the base for permitting the impression means to pivot between a first and second position, a spring for forcing the lever into the second position, and a cable, for manual engagement by a user, for opposing the force of the spring whereby when the cable is

engaged, the spring is compressed and the impression means is moved into the first position; and when the cable is disengaged the spring is decompressed and the impression means is moved into the second position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
